IN THE CLAIMS:

Cancel claims 11-15.

R E M A R K S

Applicants wish to thank the Examiner handling this case for an interview courteously granted on March 2, 1983. In accordance therewith, composition claims 11-15 have been cancelled without prejudice to the filing of a divisional application on that subject matter and only method claims 16-19 have been retained. With respect to the retained method claims, it should be noted that the Examiner had not provided and applicants are not aware of any teaching or suggestion of the involved method which concerns administration of cerebral specific amounts of active material for treating the indicated
